#### **STATUTORY PAYMENTS: FY 2007**

Total amount local unit is projected to receive in FY 2006 multiplied by 100%; less FY 2007 total projected constitutional amount; multiplied by the FY 2007 statutory payment percentage.

#### **STATUTORY PAYMENTS: FY 2006**

Total amount local unit received in FY 2005 multiplied by 99.36222%; less FY 2006 total projected constitutional amount; multiplied by the FY 2006 statutory payment percentage.

#### **\*STATUTORY SALES: Prior to FY 2004**

- (1) **FY98 Percent Share:** Amount available for distribution x local unit's percent share of total FY98 payments
- (2) **Taxable Value:** Taxable value per capita ratio ( $26,675.02/\text{taxable value per capita}$ ) x population x distribution rate
- (3) **Weighted Population:** Population factor x population x distribution rate
- (4) **Yield Equalization Payment:** Local units having a taxable value per capita of more than \$24,269, probably does not receive a yield equalization payment. A percentage of the Yield Equalization payment is paid bimonthly. In August the balance of the state fiscal year Yield Equalization payment is paid.
- (5) June 2001 Constitutional Payments were decreased or increased for the 2000 Census adjustment. The June and August distribution rates are based upon estimated 2000 population. The August Taxable Value, Weighted Population and Yield Equalization payments were adjusted for the 2000 Census.

Funding for the State Revenue Sharing program consists of the following dedicated tax revenues:

In addition, the act authorizes the appropriation and distribution of state General Fund-General Purpose revenues when local governments qualify for certain supplemental payments.

#### **DISTRIBUTIONS TO CITIES, VILLAGES, AND TOWNSHIPS**

Sales tax revenues are distributed to municipalities each February, April, June, August, October and December based on statewide

tax collections for the two-month period ending the preceding December 31, February 28, April 30, June 30, August 31 and October 31. Constitutional sales tax is distributed on a per capita basis. Statutory sales tax prior to FY 2004 was distributed according to four formulae:

Percent Share of FY 98 Population Unit Type	Taxable Value Per Capita Yield Equalization
--	--

**For FY 2006, local units revenue sharing distribution is based on 100% (or a percentage determined per the State Revenue Sharing Act) of the total revenue sharing a local unit received in FY 2005. The FY 2006 statutory distribution amount would be equal to the difference between their projected total FY 2006 revenue sharing and their FY 2006 constitutional payment.**

**For FY 2005, local units revenue sharing distribution is based on 100% (or a percentage determined per the State Revenue Sharing Act) of the total revenue sharing a local unit received in FY 2004. The FY 2005 statutory distribution amount would be equal to the difference between their projected total FY 2005 revenue sharing and their FY 2005 constitutional payment.**

**For FY 2004, local units revenue sharing distribution is based on 92% (or a percentage determined per the State Revenue Sharing Act) of the total revenue sharing a local unit received in FY 2003. The FY 2004 statutory distribution amount would be equal to the difference between their projected total FY 2004 revenue sharing and their FY 2004 constitutional payment.**
